International students studying in  
New Zealand

2015

**Allianz** 

**Global Assistance**

## Unique Policy Benefits

The general information on this page does not form part of the Policy wording but outlines some of the insurance plan and how it is uniquely designed to protect international students.

All International student insurance in New Zealand is governed by the Insurance Guidelines under the Code of Practice for the Pastoral Care of International Students.

The intention of the Code and the insurance guidelines is to ensure international students who travel to New Zealand to study are insured from the day they leave home to travel to New Zealand and remain insured for the full duration of their planned study.

The Insurance guidelines also outline the minimum range of benefits required to comply with the Code. Studentsafe-Tech insurance is fully Code compliant.

Studentsafe has been designed with the Student in mind and provides a number of unique benefits including:

- ✓ **Automatic travel insurance cover for travel between New Zealand and your Country of Origin**
- ✓ **Automatic Cover before Enrolment**

International students who are under age 60 who travel to New Zealand to study for the first time, at one of the Technical Institutes participating in the Studentsafe-Tech insurance plan, have up to 31 days of cover before the course start date for which they are enrolled or have arranged to enrol in. This cover is extended irrespective of whether the student has enrolled in the Studentsafe insurance or not. However before a claim can be accepted under the terms of the Policy, you will have to prove your intention to enrol and study at a New Zealand Institute of Technology and pay the required premium.
- ✓ **Continuous cover throughout your study years**

Provided you have paid the appropriate insurance premium each successive semester and you are enrolled in a course of study, the insurance will continue uninterrupted.
- ✓ **Guarantee of cover if you are enrolled but uninsured due to the error or omission of the Institute of Technology or other related parties**

Should for any reason you are enrolled in study but become uninsured and have a reason to claim, the cover will be reinstated provided you pay the premium due and it is established to the insurer's satisfaction the oversight was not due to you purposely avoiding to enrol in the insurance or pay the insurance premium.
- ✓ **21 days of run-off cover under the Policy if you are granted a residence visa or permanent residency while studying in New Zealand**

Cover under Section 1 Medical and Related Expenses will cease 21 days after any international student insured under this Policy is granted New Zealand residence visa or permanent residency. This change in cover is because on gaining residency the student is eligible for publically funded health care in New Zealand. The balance of the Policy benefits will continue until the expiry date of the Policy.

**The benefits set out above are a summary only of some of the cover available under this Policy. You must refer to the full wording for all terms and conditions that apply.**
